

## § 648.83

designation must have on board written confirmation issued by the Regional Administrator, that the vessel is a Trip gillnet vessel.

[61 FR 34968, July 3, 1996, as amended at 62 FR 2620, Jan. 17, 1997; 62 FR 14650, Mar. 27, 1997; 62 FR 15388, Apr. 1, 1997; 62 FR 37156, July 11, 1997; 62 FR 49149, Sept. 19, 1997]

### § 648.83 Minimum fish sizes.

(a) *Minimum fish sizes.* (1) Minimum fish sizes for recreational vessels and charter/party vessels that are not fishing under a NE multispecies DAS are specified in § 648.89. All other vessels are subject to the following minimum fish sizes (TL):

MINIMUM FISH SIZES (TL)	
Species	Size (Inches)
Cod .....	19 (48.3 cm)
Haddock .....	19 (48.3 cm)
Pollock .....	19 (48.3 cm)
Witch flounder (gray sole) .....	14 (35.6 cm)
Yellowtail flounder .....	13 (33.0 cm)
American plaice (dab) .....	14 (35.6 cm)
Winter flounder (blackback) .....	12 (30.48 cm)
Redfish .....	9 (22.9 cm)

(2) The minimum fish size applies to the whole fish or to any part of a fish while possessed on board a vessel, except as provided in paragraph (b) of this section, and to whole fish only, after landing. Fish or parts of fish must have skin on while possessed on board a vessel and at the time of landing in order to meet minimum size requirements. "Skin on" means the entire portion of the skin normally attached to the portion of the fish or fish parts possessed.

(b) *Exceptions.* (1) Each person aboard a vessel issued a limited access permit and fishing under the DAS program may possess up to 25 lb (11.3 kg) of fillets that measure less than the minimum size, if such fillets are from legal-sized fish and are not offered or intended for sale, trade, or barter.

(2) Recreational, party, and charter vessels may possess fillets less than the minimum size specified, if the fillets are taken from legal-sized fish and are not offered or intended for sale, trade or barter.

(3) Vessels fishing exclusively with pot gear may possess multispecies frames used, or to be used, as bait that measure less than the minimum fish

## 50 CFR Ch. VI (10-1-97 Edition)

size, if there is a receipt for purchase of those frames on board the vessel.

(c) *Adjustments.* (1) At any time when information is available, the NEFMC will review the best available mesh selectivity information to determine the appropriate minimum size for the species listed in paragraph (a) of this section, except winter flounder, according to the length at which 25 percent of the regulated species would be retained by the applicable minimum mesh size.

(2) Upon determination of the appropriate minimum sizes, the NEFMC shall propose the minimum fish sizes to be implemented following the procedures specified in § 648.90.

(3) Additional adjustments or changes to the minimum fish sizes specified in paragraph (a) of this section, and exemptions as specified in paragraph (b) of this section, may be made at any time after implementation of the final rule as specified under § 648.90.

[61 FR 34968, July 3, 1996, as amended at 61 FR 49277, Sept. 19, 1996]

### § 648.84 Gear-marking requirements and gear restrictions.

(a) Bottom-tending fixed gear, including, but not limited to gillnets and longlines, designed for, capable of, or fishing for NE multispecies must have the name of the owner or vessel, or the official number of that vessel permanently affixed to any buoys, gillnets, longlines, or other appropriate gear so that the name of the owner or vessel or official number of the vessel is visible on the surface of the water.

(b) Bottom-tending fixed gear, including, but not limited to gillnets or longline gear, must be marked so that the westernmost end (measuring the half compass circle from magnetic south through west to, and including, north) of the gear displays a standard 12-inch (30.5-cm) tetrahedral corner radar reflector and a pennant positioned on a staff at least 6 ft (1.8 m) above the buoy. The easternmost end (meaning the half compass circle from magnetic north through east to, and including, south) of the gear need display only the standard 12-inch (30.5-cm) tetrahedral radar reflector positioned in the same way.
